Would just like to say that I have just finished Chasin' that Carrot couldn't put it down absolutely tremendous, it made me laugh, cry and even angry the way they were used and treated ,
 The story is one of the best I've read in a while, brilliant two books, is there going to be a third? I hope so 😊
 I will be putting these on my pile of books that I read over and over and will be recommending to anyone that listens and on Friends Reunited book lovers group
 Well done Avril Dalziel Saunders once again on these two great books 😊
